Sahaja Reddy Sathi

has successfully completed the online, non-credit Professional Certificate

IBM Business Analyst

In this Professional Certificate, learners have gained essential skills to perform tasks in an entry-level Business Analyst role. The certificate holder has demonstrated a firm knowledge of the business analysis process and strategic approaches to support decision-making. The holder can implement process modeling techniques, gather requirements effectively, and engage stakeholders to drive successful business outcomes. They have developed proficiency in systems analysis, data analysis, and data visualization and can apply essential tools and techniques to address both basic and advanced challenges. They also excel in project management by identifying stakeholders, developing project plans, and executing tasks with strong communication strategies.
